

SUMMER BLAST

CAMP ACTIVITIES

Kids will also enjoy daily gallery time during camp!

JURASSIC

Dino Excursion	Go on a scavenger hunt around the museum to solve clues and find lost dino's hidden in the museum.
Fossil making	Explore the process of fossilization and learn about the fascinating science behind it as you mold and shape your fossils.
P is for Paleontology	Dive into the fascinating field of paleontology as make and identify dinosaur bones, and piece together clues from the past to make your mini dino dig.
Dino Habitat	Explore the ancient world of dinosaurs as you design and build your own miniature dino habitat in the form of a terrarium.

MESS

Pour Paint	Kids will explore the fascinating interplay of gravity, motion, and paint with the magic of color as they create swirling, one-of-a-kind artworks. It's messy, it's vibrant, and it's the perfect way to let creativity flow... literally!
Sphero Painting	Roll, splash, and create with the power of robotics! In this wildly fun and colorful workshop, kids will program Sphero robots to zip through paint and across canvases leaving behind unpredictable masterpieces.
Anything but a brush!	Forget about the traditional paintbrushes in this activity, kids will use everyday objects and unexpected materials to apply paint and create stunning works of art.
Color catapults	Activate the artist within you as you catapult paint across the room and create amazing masterpieces and memories.
Messy Science	Get ready to mix and create colorful chemical reactions that will blow you away.

SUMMER BLAST

CAMP ACTIVITIES

SPACE

Constellation art	Catapult different comets and see the colorful craters they leave behind.
Space Hunt	Explore the vast reaches of space and uncover hidden treasures scattered throughout the galaxy. Embark on an epic scavenger hunt to solve space-themed challenges and unlock the mysteries of the cosmos.
CosmoScope	Step into the wonders of deep space as you craft your own cosmic kaleidoscope!
Rovers and Research	Join us for an exhilarating rover mission and discover the challenges of exploring the unknown using a robot.
Space exploration	Jump on a space mission to build a station suitable for human colonization on a distant planet!

TINKER

Geometric Art	Kids explore the fascinating world of geometric art, combining math and creativity. Through a series of engaging activities, children will explore basic geometric shapes, experiment with colors, and bring their unique artistic visions to life.
Ancient Architecture	Step into the world of ancient architects and craft your own gypsum bricks! Explore ancient construction techniques to create your own unique structures.
Marble Day!	Prepare for a marbled day of engineering, creativity, and gravity-defying fun! An exciting and educational day of hands-on activities, challenges, and marblemazing adventures.
Circuits	Kids explore the exciting world of circuits, by experimenting and tinkering with circuit blocks. The activities provide the kids a basic understanding of circuits, discovering how electricity flows and powers different electrical components.
Tri-BOT-lon!	Participate in a series of challenges and engaging activities, where kids learn the basics of programming, problem-solving, and teamwork while having a blast navigating their Sphero robot through various challenges.
