

CAMP ACTIVITIES

MORNING

Linkages	This interactive and engaging activity introduces kids to the fascinating world of linkages how things connect, move, and work together. The activity allows kids to explore the concept/Science of linkages, enhancing their problem-solving skills and encouraging imaginative/creative thinking.
Architectural Engineering	Kids engage themselves in a series of hand-on, creative and fun architectural engineering activities using unique cardboard shapes.
Rovers and Research	Join us for an exhilarating rover mission and discover the challenges of exploring the unknown using a robot.
Tinker Tech	Unleash your creativity and explore the world of interactive technology with Makey Makey! Kids will learn how to turn everyday objects into touch-sensitive inputs for their computer and explore the concepts of electrical conductors to create their very own musical instruments.
Catapults	Catapult yourself into exploring the mechanical world of simple ballistic devices, and medieval engineering!

CAMP ACTIVITIES

AFTERNOON

<p>Invention of Printing</p>	<p>Step into the Renaissance era and become an inventor! In this hands-on activity, Kids use blocks as stamps to create patterns and designs, exploring how printers in the Renaissance shared ideas and art.</p>
<p>Marble Day!</p>	<p>Prepare for a marbleous day of engineering, creativity, and gravity-defying fun! An exciting and educational day of hands-on activities, challenges, and marblemazing adventures.</p>
<p>Tri-BOT-lon!</p>	<p>Participate in a series of challenges and engaging activities, where kids learn the basics of programming, problem-solving, and teamwork while having a blast navigating their Sphero robot through various challenges.</p>
<p>Scribbling Machines</p>	<p>Get ready for a mess of fun! Kids build tiny machines that spin, wobble, and zoom across paper, leaving behind unique and colourful patterns. Each scribble is a surprise, making this a lively, hands-on way to explore movement, and creativity.</p>
<p>Rocketry</p>	<p>Kids design and launch rockets, discovering how space travel works while imagining the possibilities of the future.</p>
